

READY-TO-USE LIQUID INNOVATION

A versatile liquid humic acid formulation designed for maximum flexibility in application and superior results.

CONTENT ANALYSIS

Humic Substances	12% (Colorimetric)
Organic Carbon	4.49%
pH	9-11
C:N Ratio	25:1
Fulvic Acid	1.79% (HPTA)
Density	1.0 kg/L

BLENDING INSTRUCTIONS

- Do not mix with high nitrogen or phosphate liquid fertilizer solutions, such as 10-34-0
- When impregnating with urea, can blend up to ½ gal. (1.9 L) per tonne for nitrogen stabilization purposes
- If mixing with UAN, mix at a rate of .125 gal. LC/10 gal. (1 L LC/37.9 L) UAN (28-0-0 or 32-0-0)
- **Conduct small jar test, prior to blending**

APPLICATIONS

Agriculture

Environment

Turf

Horticulture

Aquaculture

APPLICATION RATES

Irrigation Water	1 gal./ac. (3.8 L/ac.) (10 L/ha)
Foliar Spray	0.25-0.5 gal./ac. (0.9-1.9 L/ac.) (2.5-5 L/ha)
Pre-Plant In-Furrow	0.25-0.5 gal./ac. (0.9-1.9 L/ac.) (2.5-5 L/ha)
Side Dress and Strip-Till	0.5-2 gal./ac. (1.9-7.6 L/ac.) (5-20 L/ha)

SIZES AVAILABLE

- 265 gal. (1000 L)
 - 5 gal. (18.9 L)
- *Bulk available upon request

EQUIPMENT COMPATIBILITY

- Irrigation systems
- Sprayers
- Liquid fertilizer equipment
- In-furrow applicators
